PLENTY OF RAIN IN YUGOSLAVIA;
WEATHER REPORTS GIVEN

NORTHERLY SECTIONS AFFECTED -- Borba, No 162, 8 Jul 50

According to the Federal Weather Bureau, there was abundant rainfall on 6 and 7 July in almost all northwestern and northeastern sections of Yugoslavia. There was rain throughout the Vojvodina, Croatia, and Slovenia, and in parts of Bosnia and Northern Serbia. Heavy precipitation was reported in the vicinity of Sombor and in the entire western section of the Vojvodina. There was no rain in the Croatian Primorje, Southern Serbia, Macedonia, and Montenegro.

On 6 July, in the afternoon, the weather was slightly cool in northwestern and northern sections. In the evening, the Vojvodina had local thundershowers. During 7 July, after some clearing, it became considerably cloudy, and in the afternoon there was a moderate rainfall in Slovenia.

During the night, between 7 and 8 July, heavy thundershowers were recorded in Croatia, the Vojvodina, the Tuzla and Doboje districts, and in certain North Bosnian towns. During these 2 days, 5 to 15 millimeters of rain fell, and at some places even more. The temperature began to fall on 6 July. The maximum temperatures on 7 July were 35 and 38 degrees centigrade in southeastern sections. Scattered clouds are predicted for July.

FORECASTS FOR YUGOSLAVIA -- Borba, No 142-165, 15 Jun - 12 Jul 50

Forecast for 15 June -- Variable cloudiness throughout Yugoslavia, with brief but heavy thundershowers. Moderate westerly winds, temperature falling slightly.

Report for 16 June -- Fair and slightly cloudy. Light to moderate west winds. Temperatures at 1300 varied between 25 and 31 degrees centigrade.

Forecast for 17 June -- Generally fair. Slightly cloudy during the day. Thundershowers predicted for northwestern and northern Yugoslavia. Temperature will continue high.

Forecast for 21 June -- Generally clear in the morning. In the afternoon slightly to moderately cloudy. Light winds. Temperature rising.

Forecast for 28 June -- Slightly to moderately cloudy, except in the Primorje, where the weather will be fair. During the day, variable cloudiness and local thundershowers in central and eastern Yugoslavia. Moderate northerly winds. No change in temperature.

Forecast for 29 June -- Fair and slightly cloudy, except in eastern districts, where it will be moderately cloudy with light local rains. Light winds and little change in temperature.

Forecast for 1 July -- Generally clear in the morning throughout Yugoslavia. During the day, slightly cloudy, except in Serbia and Macedonia, where it will be moderately cloudy. Moderate cloudiness is also expected in Slovenia at the end of the day. Light winds. Temperature continuing high with an expected maximum of 40 degrees centigrade.

Report for 1 July -- Generally fair. Light winds. Temperature at 1300 between 35 and 39 degrees centigrade. In the Primorje, the temperature was between 28 and 32 degrees centigrade.

Forecast for 2 July -- Variable cloudiness with thundershowers and a drop in temperature in Slovenia, Croatia, the Vojvodina, and Serbia. Continuing fair with little change in temperature in other parts of Yugoslavia.

Report for 2 July -- Generally fair with light winds. Temperatures at 1300 were between 34 and 38 degrees centigrade.

Forecast for 3 July -- Fair in the morning, slightly cloudy in the afternoon. Scattered local thundershowers in Bosnia and Serbia. No change in temperature.

Report for 3 July -- Fair in the morning, increasing cloudiness during the day. Heavy thunder and slight scattered showers in the afternoon throughout Yugoslavia, except in Slovenia and Croatia. Temperatures at 1300 and later were between 34 and 38 degrees centigrade.

Forecast for 4 July -- In the morning, fair throughout Yugoslavia. During the day, slightly cloudy with possible light local thundershowers. No change in temperature.

Report for 4 July -- Fair and warm. The temperature at 1300 was between 30 and 34 degrees centigrade in the Primorje and in Macedonia; elsewhere the temperatures were between 34 and 39 degrees centigrade.

Forecast for 5 July -- Fair in the morning throughout Yugoslavia. Warm, no wind. In the afternoon, moderately cloudy with light thundershowers in the northwest and north. Temperature will fall slightly.

Forecast for 6 July -- Increasing cloudiness in Slovenia with local showers. No change in the weather in other parts of Yugoslavia.

Report for 7 July -- Showers in northern Vojvodina and Slovenia. In the rest of Yugoslavia it was slightly cloudy in the morning and moderately cloudy during the day. Moderate northerly winds. Temperatures at 1300 were between 32 and 35 degrees centigrade. In Slovenia it was between 24 and 27 degrees centigrade.

Forecast for 8 July -- Moderately cloudy in the morning in northwestern and central sections; elsewhere fair or slightly cloudy. During the day, moderately cloudy with rain in northwestern sections. Scattered thundershowers are expected in central and eastern sections. The temperature will continue to fall.

Report for 8 July -- Moderately cloudy, with rain in Bosnia and western Serbia in the morning. The weather was clearing in the afternoon in Slovenia, Croatia, and in the Primorje. Scattered thundershowers occurred in Montenegro and Serbia; chiefly moderate northerly winds; temperatures at 1300 about 26 degrees centigrade. In the Primorje and Macedonia the temperature was between 30 and 33 degrees centigrade.

Forecast for 9 July -- Slightly to moderately cloudy in northwestern sections and variable cloudiness with afternoon local thundershowers in all other sections. Chiefly moderate northerly winds. A small storm is going on in the Primorje.

Forecast for 10 July -- Clear in the morning throughout Yugoslavia, except in extreme eastern parts. Cloudy in Macedonia and Serbia. Light winds. Temperatures will rise up to 30 degrees centigrade.

Report for 11 July -- Considerable cloudiness, with scattered showers in Slovenia, Croatia, the Primorje, and Bosnia and Herzegovina. Clearing in western sections. Moderate northerly winds. The temperatures at 1300 were between 20 and 26 degrees centigrade. In Macedonia, Serbia and the Vojvodina the temperature was between 26 and 30 degrees centigrade.

Forecast for 12 July -- Variable cloudiness during the day in almost all of Yugoslavia, except in the southeast, where it will be considerably cloudy with scattered showers. Increasing cloudiness with possible showers in the afternoon in northwestern sections. No change in temperature.
